

ADJECTIVE SCAVENGER HUNT

You will be divided into your families and you will have approximately 2 class periods to come up with photos for a list of 20 different adjectives chosen from the list below.

Get a photo of at least 20 adjectives on the scavenger hunt list in the allotted time. Point values are assigned to various adjectives, so be sure to strategically choose the best words that will earn you the most points.

In addition to the photos, you must also write captions for each photo. You may handwrite or type up the captions, just be sure it is easy to tell which photos belong to which captions.

After the time for the hunt is over, you will load the photos onto a computer and place each photo AND the caption into separate word documents with everyone's name on paper. Group will use the following format for file name : GROUPNAME_ADJECTIVE.

Save EACH document as a WORD and PDF and submit to student drive (I:\Students\~Graphic Design & Imaging\ - Graphics Student Hand-In Folder\~KIEL - STUDENT HAND IN FOLDER\Hour 3 - YEARBOOK 1_2_3_4\PHOTO SCAVENGER.) ALL photos will be shown using SMART BOARD and will be placed into the adjective categories. As a staff, we will then vote on the BEST photo and caption/headline for each adjective and only that team gets the points for that photo.

The team that earns the most points wins the event. In order to WIN this event, ALL students must participate in EVERY aspect of project.

When judging the images, please keep in mind that we are looking for the best **YEARBOOK** image and most creative captions/headlines. There might be a shot of a shoe that is just plain vs. an image taken from an interesting angle or perspective. Creative captions can sometimes sway the vote as well.

MAKE SURE THAT YOU USE THE IMPACTFUL IMAGE AND PHOTOS THAT TELL A STORY CARD TO ENHANCE YOUR PHOTOGRAPHY!
