

Journal #4

Becoming a member of the work force has its pros and cons. Though money is a motivating factor, having a job may not be all that you expect.

Write a journal entry on what your current job has been like - hierarchy, pay, bosses, upward mobility, etc. What are some of the challenges that you face? What has occurred that has made you consider looking for a new job? In order to leave your current place of employment, what would have to occur to tempt you away? How has holding down a job affected you? Do you see the challenges you face getting better at a new job? Why or why not?

OR

Write a journal about what you know about the current workforce. What are the challenges that one faces in the job market today? What items are necessary to "survive?" How do you plan to deal with the obstacles that are currently in the job market? Do you believe that the challenges for you will increase or decrease by the time you are ready to apply for a "big kid" job? Why or why not?
